

UNITED STATES DISTRICT COURT  
SOUTHERN DISTRICT OF FLORIDA

CASE NO. 25-80156-cr-DMM

UNITED STATES OF AMERICA

v.

JORGE IBARRA,

Defendant.

FACTUAL PROFFER

Defendant Jorge Ibarra, (hereinafter referred to as the “defendant”), his counsel, and the United States agree that, had this case proceeded to trial, the United States would have proven the following facts, which occurred in Palm Beach County in the Southern District of Florida, beyond a reasonable doubt, and that the following facts are true and accurate and are sufficient to support a plea of guilty:

1. On April 27, 2023, an adult female (hereinafter “Victim 1”) called the FBI National Threat Operations Center (hereinafter “NTOC”) to report receiving harassing and threatening text messages from more than 100 hundred different phone numbers for the past year. Victim 1 advised that on the date of her report to NTOC, an unknown subject, later identified as the defendant, threatened to “slit the throat” of Victim 1’s four-year-old niece, who the unknown subject believed to be Victim 1’s daughter. The defendant also threatened to kidnap Victim 1’s niece to sell her overseas. Victim 1 reported that the frequency and severity of the threats of violence in the text messages had escalated recently. She reported the threatening messages to her local police department previously.

2. In May 2023, FBI Atlanta Division interviewed Victim 1. In addition to the information reported previously, Victim 1 stated that she believed that one person sent the hundreds of harassing and threatening messages, due to the similar language in the messages and the bad grammar. Law enforcement later identified the defendant as the sender of all the threatening messages to Victim 1. Victim 1 believed she was targeted her due to her role as a commentator for a political news organization. Victim 1 eventually obtained a new telephone number to thwart further contact by the unknown subject.

3. After the initial reporting, Victim 1 continued to provide additional incoming messages to the FBI. In October 2023, agents from the FBI Atlanta Division forensically extracted text messages from Victim 1's phone with her consent. A sample of the messages are provided below:

4. On May 10, 2023, an adult female (hereinafter "Victim 2") called NTOC and reported having received harassing and threatening text messages from an unknown subject since approximately March 2023. Law enforcement later identified the subject as the defendant. Victim 2 worked for the same news organization as Victim 1. Victim 2 reported that she began receiving the messages after attending a work conference in Washington D.C. Victim 2 believed that she received the messages due to her professional affiliation. Victim 2 described having received text messages from approximately 10 to 15 different phone numbers. Some of the messages pertained to Victim 2's work in politics. Other messages threatened to rape Victim 2 and indicated that Victim 2 had a bounty on her head. Victim 2 reported the threatening messages to her local police department approximately two weeks earlier.

5. In May 2023, FBI Tampa Division interviewed Victim 2. In addition to the information provided previously, Victim 2 stated she had also received harassing and threatening messages on the online messaging application, Telegram, for approximately two years. Victim 2's coworkers, including Victim 1, also received threatening and harassing communications. Some of the text messages referred to Victim 2 being physically harmed, trafficked, or raped. Victim 2 provided screenshots of some of the messages to FBI Tampa Division.

6. In June and July 2023, Victim 2 continued to provide additional incoming messages to the FBI. A sample of the messages are provided below:

8. By sending these messages, the defendant intended to harass and intimidate Victim 1 and Victim 2, and did place them and others in reasonable fear of death or serious bodily injury.

9. On November 22, 2024, agents executed a search warrant at the defendant's residence. During the search, agents seized the defendant's cellular telephone and other electronic devices. On site, they confirmed that the defendant's computer contained at least one of the messaging apps used to threaten the victims.

10. During a post-*Miranda* interview, the defendant admitted that he sent threatening and harassing messages to Victim 1 and Victim 2 from as far back as 2020 or 2021. This information is consistent with both Victims reporting to the FBI. The defendant explained that he saw the victims broadcasting the news a pro President-Elect Donald J. Trump news station. The defendant began sending the messages out of "stupidity" and because he felt "bored." The defendant acknowledged that his messages were "horrific," and he felt bad afterwards.
